# Let's Grow Your Modular Business Together

Turn your supply management from  
**reactive to proactive** with SlickStock.

First for  
service,  
second to  
none

# Don't let missing components stop production

FixFirm is the ideal partner for any company involved in modular building systems due to the ability to source products along with the breadth of our stock, meaning you can **complete your modular building projects faster**.

Working with a specialist supplier who has a broad range of products which have been developed for sustainable building technologies is vital for your project to keep running smoothly. Saving time and money will be easy by having a supplier that has large stock and the ability to source items quickly.

With new technologies and methods continually evolving choose a supplier that works on evaluating their range constantly to ensure they keep pace.

## As innovative and progressive supply partners we understand:

### The drivers of your success are:

- Increase output
- Maximise productivity
- Client satisfaction
- Scalable consistency

### To deliver for your clients:

- Efficiency, predictability and safety
- Sustainability
- Reduced project lead times
- Less disruption to clients

**“FixFirm are a pleasure to deal with, they really have taken the difficulty out of keeping our sites stocked up and running smooth.”**

**James Hill – Eco Modular Buildings**

**FixFirm focus on supplying, so you can focus on building.**

# Why choose FixFirm?

With over 50 years' experience of delivering solutions to many key players in the modular industry, FixFirm have a unique level of understanding into the challenges and requirements you face.

**Speed** – Getting your project completed on time and as cost effectively as possible would be our mutual purpose with FixFirm continually striving to make things efficient for you. Helping you to streamline and standardise on your projects to enhance quality in your product and win ongoing projects through reputation.

**Bespoke** – We understand that not every client has the same needs so our solution is centered on your progress as a company. Likewise no two projects are the same so with collaboration and our flexible approach we help you succeed.

**Easy** – We're here to make your work easier. Having a specific Account Manager and Project Team assigned to you ensures you have support at every step of the journey.

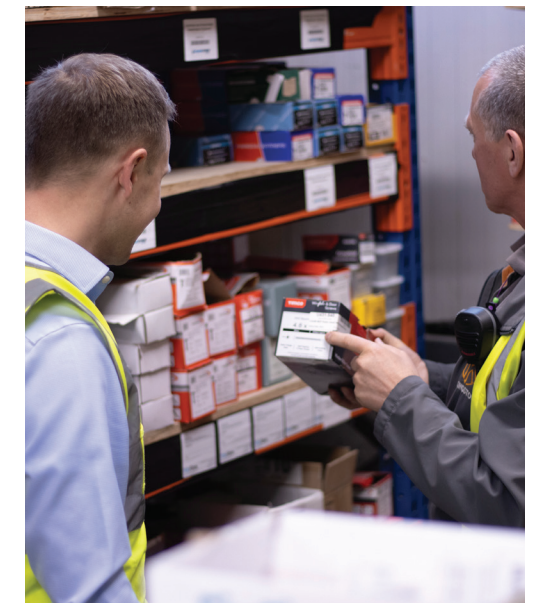

**Experience** – Changing suppliers can seem like a risky process with the worry of a delay in production or an interruption of your internal processes not to mention also the common theme of people not liking change. Recognising these challenges and our extensive experience is why the SlickStock 5 step Implementation method was created, to ensure seamless deployment and peace of mind.

**The product range is not only top of the line but also comes with ongoing technical support to ensure that you're using the right fastening solution for the job.**

By getting to know our customers and build a long standing relationship, we know the importance of the right solution for you to have full trust in us to be your partner of choice.

### How we help you reach your goals and can guarantee:

- Accuracy
- Available stock
- Cost allocation
- Flexibility to suit you
- Quality products
- Collaboration
- Fast turnaround

## For maximum results we follow this Five Step Process:

**1. Scoping process**  
Which areas and deliverables

**2. Collaborate**  
Key personal input

**3. Mapping Process**  
Design and plan

**4. Implementation**  
Clarity and visibility

**5. Ongoing review and management**

# Production can't stop!

## Choose SLICKSTOCK

Powered by FixFirm

By operating a flexible and reliable bespoke stock management solution will **increase your efficiency and production capacity.**

From KANBAN, Two-Bin, JIT, VMI and Consignment Stock, find a solution that suits your needs. With flexible stock management solutions FixFirm slots simply and easily into your production process and soon will be supporting your future success.

Our technical ability ensures we deliver problem solving products and solutions with full site support. We realise that ensuring you have the right components and stock on-site when you need them is a critical cog in your operation.

“SlickStock is perfect, it saves me 2-3 hours a day, now I can help the lads on the shop floor and help get the job done, the pressure has been taken away.”

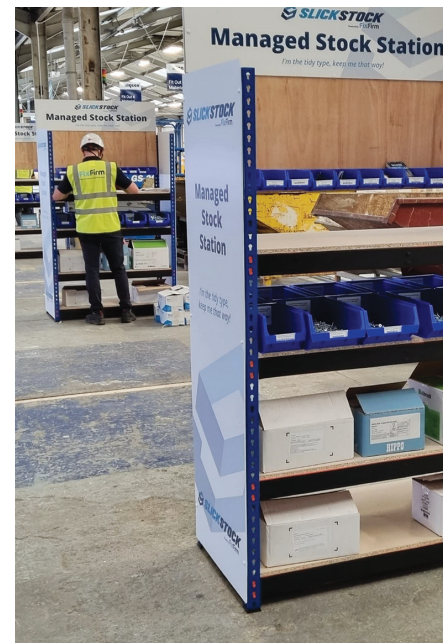

Andy – Store Manager – Kingston Modular Buildings

## Market leading product innovations and time saving solutions

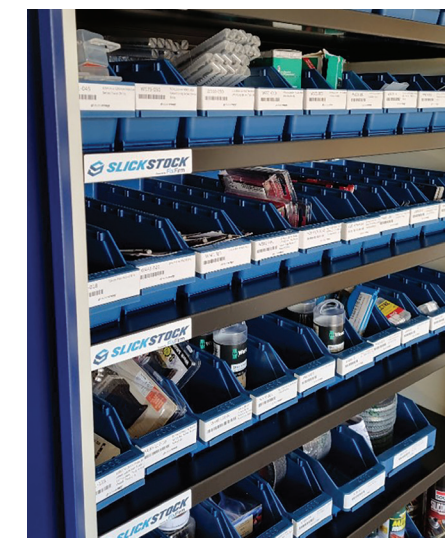

If the product is not there you cannot get your work done. Why not choose a supplier that has a large stock supply and the ability to source products quickly and efficiently?

### We can supply:

-  A range of rivets
-  Bolt and nut fasteners
-  Self drill screws
-  Drilling and cutting tools
-  Sealants
-  Air tools and nails
-  Abrasives
-  PPE and welfare supplies
-  Lindapter metal work fittings
-  Concrete anchors

*Ease your stress with a FixFirm partnership. Turn your stock management from 'reactive' to 'proactive' so your team can focus on high value work!*

# Sustainability at FixFirm

Here at FixFirm we are committed to working as sustainably as possible. We are constantly striving to keep waste to a minimum and reuse products, where possible, in accordance with the Environmental Protection Act 1990 and the Producer Responsibility Obligations (Packaging Waste) Regulations 1997.

## FixFirm waste reduction:

- Recycling of materials, where feasible, to minimise wastage and raw material consumption
- Packing boxes reused whenever possible
- Regular review and monitoring of waste volumes
- 'E-tape' packing tape used
- Waste wood (i.e broken pallets) is sent for conversion into wooden pellets and used in biomass heating systems

## Natural resources consumption reduction:

- Engineering controls are in place to ensure gas appliances are operating in an efficient working order
- Vehicles are maintained and operated to ensure efficiency and minimise environmental impact
- Operation of energy saving techniques, such as occupancy sensors for office lighting
- Insulation levels of current premises have been upgraded to reduce energy consumption
- A new, more efficient heating and air conditioning system throughout the offices

## Electric cars at FixFirm

At FixFirm we encourage our staff to work and live as sustainably as possible. To encourage this, we have put an electric car charging port in our car park, where our staff can charge their cars, free of charge during the work day.

# 5 Star Service Promise

We pride ourselves on offering the same top rated service for all our customers.

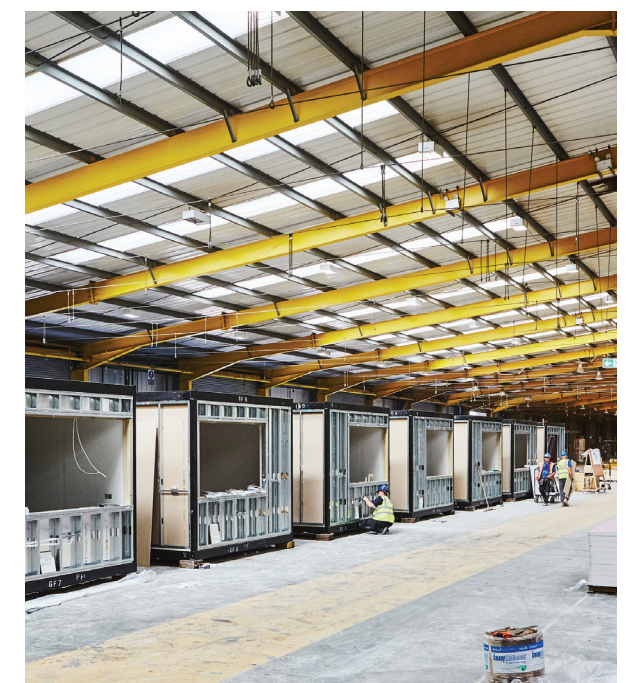

## Working with FixFirm you will benefit from:

By working with you step by step throughout your project, you can be assured that whether you need technical support or a site visit to go through your requirements, our friendly team are here to guide you.

We want to work with you to ensure the right solutions are found for your projects.
